

Shelter Canopy

Seating Wall

Proposed Trees

1.2m Steel Mesh Net fencing to play area with hedge to play area side

Playground Features

Pedestrian access gate

This architectural section drawing illustrates the vertical profile of the playground. It shows the ground level, the base of the play structures, and the heights of various elements. Key features labeled include a 'Stone Sea Wall' on the left, a '1m Steel Mesh Net Fencing to play area' for safety, 'Proposed Trees' for landscaping, 'Playground Features' such as slides and climbing structures, and a 'Shelter Canopy' for shade. The drawing uses fine lines to represent the complex geometry of the play equipment and the surrounding environment.
